From the Founder's Desk

Like father, like son!!

A team of sincere social worker form Spandan Yuva Pratishthan in year 2010. All the people were from different field. The area where we registered the NGO is surrounding from slums. The quality of education and interest of education was very poor among school students.

Initially we focus of taking classes of slum students and help them to be a good educator first. Later we started to organizes different types of activities for school students. We also engaged ourselves in creating a youth who can be employable person and will accommodate themselves if different organisations.

Day by day our small activities increased and now we started to work with CSR companies and aim at different level. Since last three yeasrs Spandan Yuva Pratishthan is working with some CSR and social organisation to handle good projects for social cause.

We are happy that the path of social work will be continue and more and more students and people will be benefitted through our organisation.

.

Bramhadev Atkari

Founder and Project Head

About us

Spandan Yuva Pratishthan (SYP) is working in the vicinity of Maharashtra for youth development and organizes various events and capacity building program. SYP is a non-government organisations register under society's registration act 1860. This organisations as the name suggests work in the areas of youth development, skill training, sustainable cities etc. Spandan Yuva Pratishthan is an organisations established by the youths for the youth's development especially weaker sections of the society like children, adolescent girls and woman. They also work in the areas of social justice, equality and sustainable environment in and around the community.

Spandan Yuva Pratishthan is committed to bring and spread values like social justice, empowerment of women, Indian youth and children etc. Through their various programs they intend to bring empowerment to the society and their immediate communities.

Vision

To empower marginalized communities through enhanced Education, Health and Income generation, Children Development, Youth empowerment and Public health programs with special focus on women and children, by conducting training, developing basic infrastructure,

Mission

To cultivate the potential in every student to thrive as National citizen by supporting every student to achieve academic excellence, ensure healthy standard of living, provide medical aid and facilities to common people and safeguarding environment

Values

- Working with efficiency and long-term sustainability
- Valuing the principle of social justice and empowerment of Indian youth, women and child
- Believe in the power of committed youth individuals and organization who want to continue to the empowerment of whole society

Vision
Mission
Values

Activities

Spandan Yuva Pratishthan is Engaged in activities like Tree Plantation, providing good quality of educational teachings, kids library, Science Experiments training to school students and provide school kits to poor students etc

Following Activities are carried out by Team Spandan in Year 2017-18.

Read India – Kids Library

One of our report explored that due to Television and Mobile phone trend to reading books come down drastically students hardly now days read book apart from school studies. In reality the knowledge and information we receive from books is very important for personal and mental growth. By seeing this situation Spandan Yuva Pratishthan started a mobile school library, where students or children can come in a day of week and read more than 300 types of books.

World Environment Day

5th of June is celebrated as World Environment Day worldwide. In SYP, the students are taught about the importance of trees and afforestation. They are also taught about the ways in which we can keep our environment clean and healthy. Tree plantations are done in the vicinities. Children are encouraged to take care of the planted saplings. Teachers tell them about the absence of trees and elicit responses from them. As a part of this celebration different types of leaves are carried to school. The students are shown various types of plants like medicinal plants (Neem, Tulsi etc.,) and discussion is held on that. The celebration is held for two days. In year 2017-18 we planted **1000** trees in different schools in Mumbai and suburban

STEM Learning Project

The school students are less interested in science a study shows. We at SYP organised Science Training for 350 students of various schools. We allow them to handle the equipments which is help them to learn the science in innovative way. All these schools are unprivileged. These schools don't have science laboratory so we design a movable small laboratory which we took to schools.

School Bags Distribution

SYP found that many students use old school bags or material for going schools, hence we planned to provide good quality bags to the poor students. Bag Distribution is a small activity which we have started from last three years. We distribute bags along with note books and compass box to the needy students from slum area. Every year we distribute more than 500 schools bags to the needy students.

Publishing Souvenir

Every Year we Publish souvenir on different issues faced by our country. The issues like Water Scarcity, Environment, Women Empowerment, Child Education are taken by our editor team in this souvenir. We distribute this souvenir to the different social minded people and thinkers who can help us to reach our message in souvenir to different part of society.

Medivision

Spandan Yuva Pratishthan was a one of the partner of Medivision event organised by Medivision organisation in Navi Mumbai. Its was the different kind of its event in which students who are persuing MBBS or BDS in different part of country participated in this program. More than 300 students doctors had taken part in this three days conference. The seniors doctors from various hospitals and colleges share their views and guide students.

Other Activities

Apart from the festival celebrations, Spandan Yuva Pratishthan takes many exclusive activities for the children like career counselling workshops for the teenage children, medical camps etc., all these activities are free of cost for the participants.

We Organise nature trail at Mahim Nature Park or Nation Park at Borivali where they can come near to the nature and be friend with nature.

Clean India campaign also Organise by our team to keep the area clean and fine.

As a part of CSR activities we take the children to the corporates and arrange interaction session to realise the broadness of big companies.

Success Story

Spandan Yuva Pratishthan provide helps to the patients who advised by doctors for surgery. We arrange help to the patients by taking them to the hospitals where the surgery can be done Free of cost under Mahatma Phule Jan Arogya Yojana(MPJAY). We have helped around 23 patients under this project till date this year.

This is continuous activity and not any special project as such. We provide service and guide patients for right way.

Many patients who wish to get operated at private hospitals, we provide them fund under Chief Minister Relief Fund(CMRF).

This year we have helped around 35 patients and access them fund from above department of Government of Maharashtra.

The Way Forward

Spandan Yuva Pratishthan plans great things for the betterment of children in the years to come. The priorities has been set and the team is dedicatedly working on them. The following are the agendas of Spandan Yuva Pratishthan for the upcoming years.

To Acquire Funds from Sponsors

All the activities taken SYP are free of cost. There is no type of fee accepted from the students. The distribution of books, stationery, slates, uniform, food and snacks etc. costs a lot of money. Hence, in the coming years SYP needs to find a set of permanent donors. These donations should not be person-oriented. Acquiring funds is the major point for the future planning. KSM will plan to get the CSR funding's as many things from stationery of the students to the salaries of the teachers are to be paid on time.

To Start English Teaching Batches

The quality of education given in schools is little bit up to the mark but students face more issues of learning good English and speaking as well. We have planned to teach school students English Language in association with schools.

Field Specific Sponsors

SYP will find sponsors that are field specific. Sponsorships for the activities related to fields of sports, art, music and dance etc. will be welcomed.

Mentors from Varied Professions

Professionals from all the fields and specializations will be welcomed to guide the kids and give them able guidance. For example: if a engineer comes and motivates at least two students to take up Engineering then the society will get two working individuals who earn a better life for themselves.

To Create job Opportunities for former Students

SYP is striving to create job opportunities for week youth of society in various fields. It is planning to make a group, which will serve as a collective platform for the students to seek professional help while finding job opportunities after education.

The Spandan Yuva Pratishthan will always try its level best to rehabilitate the kids of the slum in a proper way. The team firmly believes that only education can bridge the gap between the rich and poor. In addition, education alone can liberate a child into a good, responsible citizen of the future.
