The Way Forward 21

Founder's Speech

***"Education is the only powerful weapon which you
can use to change the world"***

- Nelson Mandela

“At last, the Covid – 19 pandemic have been declined and gave certain relief to the common man. I pay tribute, to all those Covid warriors. who had put their lives in providing basic services, and also become a safeguard of the people. Without help and support of the Covid warriors, it was really very difficult to manage things.

May their soul find rest, who has died due to the Covid disease. It was a hard time for every human, people had to fight with the disease, at the same time they were fighting for survival. Various NGOs, social organizations, Community based organizations, and individual person came together to help each other. This was a great example of solidarity and humanity. Whole society was one, the whole nation was one.

At Spandan, we also tried our best to help and support the needy people. From providing food, to providing medical services, helping individual patients to search beds and hospitals our team manage to do all types of work with the help of donors and supporters. It was a great experience for the Spandan, being an social organisation. We tried our level best to support the society. Corporates, also have shown interest in distributing food, providing safety materials, etc.

Still, the pandemic is not over, and there is a chance of hitting it again, to the Indian subcontinent. People are ready to face the problems, mentally and physically. Hopefully, the pandemic will not affect much in the coming days and the financial condition of the country will come back on track. Issues like unemployment have already hit the country, and people are searching to get good employment opportunities. Private sector as well social sector leaders shall start to address this issue. Because, one issue will affect the next problem and the cycle of problems gets started. Hence, it is the responsibility of all of us to address any of the issues. All the best! to all the stakeholders of Spandan, and the people who are key changers in the society.

----- Sachin Sonawane

Founder & Secretary Spandan Yuva

About Organisation

Spandan Yuva Pratishthan (SYP) initiated its work in the vicinity of Maharashtra for youth development through organizing various events and capacity building programs. SYP is a non-government organisation registered under society's registration act 1860. The organisation have its presence in the community since 2011. The organisation has been able to reach 1, 52, 000 beneficiaries through different projects. We strive to make impactful work through our CSR partners and donors. We wanted to bring a sustainable change in the society by adapting innovative and creative methods. Our management team always try to focus on positive impact of the project. We also try to have scalable activity, while designing the project. SYP has expanded its borders out of Maharashtra and become a pan India organisation. Recently we have installed Water filtration plants in some rural area of the Haryana state.

SYP is mainly engaged in activities like education, health, environment and livelihood, and other such activities which are in need of time or addressing any specific issue in the community. During Covid pandemic, we have installed 8000 safety covers in rickshaws to maintain social distancing. Through our donors and CSR funders. This has made a huge impact against Covid disease. Installation of E-Learning kit in schools, providing science kit under STEM science learning project to underprivileged schools, planting trees, Providing safe drinking water to the tribal and rural areas through installation of RO plant, providing meals to the cancer patients are some of the major activities of SYP for the financial year 2020-21.

Vision

To empower marginalized communities through enhanced Education, Health and Income generation, Children Development, Youth empowerment and Public health programs with special focus on women and children, by conducting training, developing basic infrastructure

Health Care

After extensive survey, we learned that around 60 to 70 percent graduate or undergraduate youth are facing English language problems. English is a business language. Lots of avenues are opened to the youths if they are expert in English language. We aimed to teach the English language to those youths who are aspiring for jobs to settled their career. Our object was to make them fluent in English language which will help them to find and get jobs, increase knowledge level and become confident in the society. These batches were for girls between age of 16 to 24 year. We appointed expert trainer to

The English Speaking Course following key factors

Expert Teacher

Small Batches

Participation Approach

We have experienced that the girls who learned from our course are more confident than before attaining the English speaking batches. The way girls were talking English language was quite amazing. It was really great program for adolescent girls who wish to stand on their own feet.

Spandan Yuva Pratishthan has organised batches on employability, which has increased the skillset of the participants. We have executed this project in collaboration with Antarang Foundation, an NGO specially working in job readiness field. Due to Covid – 19 pandemic all the batches we had conducted were online through google meet. But, the employability batches has enhanced various skills of the youths and it also helped them to choose a better career option. Engagement with the industries prominent people was another object of this project. Career linkages as a result of the program has been seen as well.

Employability Program Includes:

Career Awareness

Mentoring

Career Linkages

Health Care

2021/3/29 12:0

Health is an important factors in today's world. It is very necessary to have regular health checkup for every human. At Spandan we have organised more than hundred health checkup camps with the help of Fullerton Financial Services Ltd. Across Maharashtra thousands of beneficiaries has received benefit of health checkup post pandemic. We have also distributed sanitizers in the community and installed safety sheets to 4000 rickshaw in Mumbai, Pune, Vadodara.

Our Health activities has below values

**Maximum Rural
Beneficiaries**

**Expert Team of
Doctors**

**Following
safety norms**

Health factor was really important in the Covid pandemic. At Spandan we provide have organized medical checkup camps in rural area of Dhule, Parbhani, Amaravati etc. total beneficiaries in the camps were more than a thousand people. Apart from this we have distributed mask and sanitizers as we;;

Hunger Eradication

During the pandemic we have distributed ration kit for a month at villages in Panvel and Uran. Total 3300 families received benefit of this kit and could eradicate hunger at least for a month through our project. We have also provided food coupon of Rs. 1000 to buy a basic necessities ration from Big Bazar. Approximately 100 families low income group families get benefit of this project across Mumbai across.

Aspects we covered at Food Security Project

At Door Step

Physiotherapists

Psychologists

CSR fund of ONGC has been utilized to distribute ration kit in Raigad district. All the families were from the vicinity of JNPT port.

In Mumbai Sony TV has released their CSR in form of coupons to purchase the ration from the Big Bazar store. SGS India Private Ltd was the link between NGO and CSR

Environment

Environment is a huge concern to the world and human being. Spandan by taking this cause into account has started to focus on recycling waste. This year we have managed to recycle around 50 ton of shredded waste paper. We collect shredded waste paper from corporates and offer them recycled plantable notebooks and pencils. This helps in both way. Waste paper get recycled and the notebooks and pencils are available for daily use, which were made from recycle paper

Stake Holders of Spandan

Spandan believes that the stakeholders of the company are as important as the internal management and founder. We always strive to connect with our stakeholder with different ways and change our process or operations by keeping in mind benefit of the stakeholders.

Huntsman International (India) Pvt. Ltd

Huntsman is the global manufacturer of chemicals that we use every day. They serve diverse range of consumer and industrial end markets, including: transportation, home life, construction, energy, fuels and clothing and footwear. Huntsman has touched lives of many people around the globe. Like enhancing the quality of education and health around villages in Baroda, India through improving infrastructure of school buildings, helping teachers training, volunteering to teach students computer skills, funding and hosting summer camps for students, distributing school supplies and providing clean and safe drinking water to local villagers etc.

Renovate India

Renovate India is a Social Enterprise which works mainly for Grassroots Non-Government Organisations (NGOs) and Community Based Organisations (CBOs) with the vision that every social organisation should be sustainable, performing well and creating social change. Grassroots NGOs and CBOs have potential to create social change as they are very closely connected with community and have in-depth sense of community issues. Renovate provide a range of services under three programames -Community Development Programme (CDP), Organisation Development Programme (ODP) and Learning and Development Programme (LDP) to achieve our vision.

Anubhooti

Anoobhuti Learning solutions Pvt. Ltd (earlier known as Experiential Learning Solutions ELS is a social enterprise incubated at IIM-C Innovation Park and Villgro. Anoobhuti is committed towards improving quality of education in primary and secondary schools by using experiential learning process. The Way Forward

Aligning activities with Corporates

All the activities taken SYP are aiming sustainable developments. We do not charge single amount from our beneficiaries. The distribution of books, stationery, slates, uniform, food and snacks etc. costs a lot of money. Hence, in the coming years SYP needs to find a set of permanent donors. These donations should not be person-oriented. Acquiring funds is the key factor for the future growth. SYP will plan to get the CSR funding through systematic way and set of processes.

Aligning our activities with the corporates will help us more to get regular funding form the corporates we are associated.

Sustainable Projects

Due to Covid crisis there was a huge change in philanthropic activities. Method, systems, paradigm has shifted to another level for the people from social sector. Spandan is planning to for preventive health checkup activities in the coming year. All the activities taken SYP are aiming sustainable developments. We do not charge single amount from our beneficiaries. The distribution of books, stationery, slates, uniform, food and snacks etc. costs a lot of money. Hence, in the coming years SYP needs to find a set of permanent donors. These donations should not be person-oriented. Acquiring funds is the key factor for the future growth. SYP will plan to get the CSR funding through systematic way and set of processes.

Aligning our activities with the corporates will help us more to get regular funding form the corporates we are associated.
